ANIMÉ LOS ANGELES Official Policy Regarding AI-Generated Artwork

AI-generated artwork and its place in the convention space (exhibit halls, artist alleys, etc.) has recently become a focal point in many online discussions. Our staff has been watching the discussion and has determined that based on the current nature of its implementation and lack of regard towards artists, we cannot in good faith let this kind of product exist in our space.

We at Animé Los Angeles do not condone or accept any form of AI-generated art piece being used within our promotional materials, nor sold in our Exhibit Hall or Artist Alley.

If any form of AI generated work being sold is determined to be as-such by our staff, it will be considered a form of counterfeit/bootleg merchandise and will be required to be removed.
